the european union and culture explains why and how the european union has started to intervene in the cultural policy sector understood here as the public policies aimed at supporting and regulating the arts and cultural industries it is the first comprehensive and theoretically informed account of the communitarisation process of the cultural policy sector before 1992 no legal basis for eu intervention in the field of culture appeared in the treaties member states were in any case reluctant to share their competences in a policy sector considered to be an area of national sovereignty in such circumstances how was the communitarisation of the policy sector ever possible who were the policy actors that played a role in this process what were their motives and why were certain actors more influential than others this book will be of great use to all researchers and students of european integration and european public policy

it has become increasingly evident that effective planning for sustainable communities environments and economies pivots on the ability of planners to see the possibilities for culture in comprehensive social historical and environmental terms and to more fully engage with the cultural practices processes and theorisation that comprise a social formation more broadly an approach to planning theory and practice that is itself formed through a close engagement with culture is required this research companion brings together leading experts from around the world to map the contours of the relationship between planning and culture and to present these inextricably linked concepts and issues together in one place by examining significant trends in varying national and international contexts the contributors scrutinise the theories and practices of both planning and culture and explore not only their interface but significant divergences and tensions in doing so this collection provides the first comprehensive overview and analysis of planning and culture interdisciplinary and international in scope it is comprised of six parts organised around the themes of global and historical contexts key dimensions of planning and cultural theory and practice and cultural and planning dynamics each section includes a final chapter that provides a case study lens which pulls the themes of the section together with reference to a significant planning issue or initiative

we are going through a difficult time presently as we reach the bottom of the involution curve of human history according to the great cycles of humanity s development this descent was intended in order to better know ourselves through matter these cycles are part of a planetary evolution design under guidance from time immemorial leading us to presently live one of these major cycles of our history indeed we are initiating the evolution phase the one of rediscovering our essential divine nature in this work we invite you to discover your inner temple to consider alternative medicines to balance the two eternal principles within each of you to use the great four sciences of the initiates to discover how women hold the keys for a new humanity and finally to live your own inner divinity on a daily basis already we perceive the dawn of a new day whereby the sun is rising in the consciousness and the warmth of the heart is calling for a deeper connection

training in multicultural issues is an area of increasing focus in medical education internationally in the united states specifically the inclusion of the topic in training programs is among the key criteria established by the liaison committee on medical education lcme for approval of schools of medicine where standard 7 6 deals with structural competence cultural competence and

health inequities this new textbook provides a culturally sensitive framework to address the major elements in the lcme standard 7 6 and to address related requirements for including multicultural issues in the curriculums of medical schools around the world key features the first book in the field to provide a framework to help approved medical schools and those in the submission process for approval in the united states to respond appropriately to standard 7 6 in the lcme this framework also supports the design of culturally sensitive curriculums in medical schools outside the united states provides specific guidelines to equip future physicians with the skills to take the culturally sensitive approaches they must use when assessing diagnosing and treating culturally diverse patients in order to ensure optimal outcomes for patients helps medical educators and schools to specify where and how in the curriculum students are best trained to become culturally competent and the need also to display attributions of cultural humility during clinical encounters with clients patients with a practical approach the book provides invaluable hands on guidance to students seeking to develop their skills knowledge and competence in this area additionally by specifying where and how in the curriculum students can be trained to be culturally competent the book serves as an essential reference for educators and medical schools seeking support in the development and implementation of a culturally appropriate curriculum
